MORE 

Dad loves The Beatles, so this Christmas, we wanted to give him the ultimate gift-- John Lennon's skeleton. The cost was not cheap; we are \$500 million in debt.

Please send money, **LOTS & LOTS OF MONEY**. We're only thinking of our dear ol' dad. (The credit card company has threatened to take our house away. They have also threatened to break dad's new hip! They said they have crowbars!)

Dad doesn't deserve this.
Please send a check. To quote John Lennon: **"HELP!"**
